FCC - MAILROOM

Dear Commissioner Powell:

EX PARTE OR LATE FILED

My name is Josephine Ramviez. I am a housewife with mental and physical disabilities. Having a cell phone has been a real help to me because I do not always have access to a regular phone in my home or when I got out somewhere.

I have had my phone for half a year now.

My husband also has a cell phone too. He has had his phone for almost two years now

It hurt very much when I heard that CPUC and the FCC would want to take away my husband's or my cell phone number.

I think it is a stupid and wrong idea. So please help!

Josephine Ramviez

Dear Commissioner Martin:

My name is Josephine Kamviez. I am a housewife with mental and physical disabilities. Having a cell phone has been a real help to me because I do not always have access to a regular phone in my home or when I *got* out somewhere.

I have had my phone for half a year now.

My husband also has a cell phone too. He has had his phone for almost two years now.

It hurt very much when I heard that CPUC and the FCC would want to take away my husband's or my cell phone number.

I think it is a stupid and wrong idea. So please help!
